

Child Care Licensing

Ohio Child Care Licensing sets minimum standards for:

- health,
- safety,
- staff education,
- staff ratios,
- program requirements,
- and nutritious meals

Information about state licensed programs can be found at:

Ohio Department of Job and Family Services: <http://childcaresearch.ohio.gov/>

Ohio Department of Education:

<http://education.ohio.gov/Topics/Early-Learning/Preschool-Licensing>

You can also see past inspection reports for all licensed child care programs in the State of Ohio. The reports will show non-compliance and Serious Risk Rule non-compliance - These are issues that you should pay close attention to when choosing quality care for your child.

Serious Risk Rule Violations will show up on the report in **RED**.
